

Children's Room Report

August 11, 2019

Story times will resume September 19th and 20th with the morning sessions being geared toward pre-school age and focusing on skills they will need for kindergarten as well as social skills. The after school Wednesday sessions will be mainly for older students and will include hands-on science activities as well as literacy.

Numbers for the summer program have been good this year. The final day will be August 16 when college students will be doing games with those who chose to attend. The last of Basloe PageTurners will be August 22. Again, thanks to Mackenzie and Shayna for doing a great job. I will have a final report for the September meeting.

Nancy
