

## From the children's Room.....

Things have been picking up in the Children's Room.

Our summer program began July 6 with a zoom presentation by Talewise Science Storytellers. "Dragons Return of the Ice Sorceress" was a live action story that combined a tale with science experiments (dry ice).

On Wednesday we had 3 families for LEGO club. Their creations are on display in the Children's Room.

Thursday Chris and I did a zoom story session with BOCES in East Herkimer. I was invited to go in person but, due to COVID restrictions at the school, they set up a zoom session for one classroom and have invited me back next Thursday to do another classroom. I also took a calendar and reading logs out so students can participate in the program.

So far we have 18 students signed up and have had one completed reading log turned in. Mackenzie and I are recording the Basloe Page Turners sessions and posting on YouTube. This has been a positive learning experience for me!

Thursday afternoon we had 3 families using the Children's room to find books and use the computers.

Let's hope this continues.

Nancy
